

Traffic Services

One of the services we can offer our clients is a vehicle plate changeover. This is re-registering your vehicle in Spain whether it be from the U.K., Germany or any other country.

Xàtiva Advice Bureau will take all the stress out of the transfer and all you have to do is wait for the plates to arrive. All paperwork will be fully registered and road tax will automatically be changed to your current address for the following year.

We are also pleased to offer our clients ITV (MOT) the help to put their vehicle through an ITV. All you will have to do is show up! We can also arrange for your vehicle to go through a pre-ITV if you require peace of mind and arrange for any parts to be changed or fixed.

If you are interested in buying a vehicle, please check out our Vehicles Page on our Website. If you require a certain vehicle and it isn't listed on the page, email us on the address at the bottom of the page and we will help you search for a vehicle that suits your needs.
